---

Linda,
You are welcome to come and review the project file. You need to set up a time with Jim Bondi. His number is 238-6654.

I'm not sure that I have what you are looking for in one final spot though. That "complete copy of the final application materials" really is the whole project case file as taken together. However, I've attached the final staff report for your records. The amended COA's were sent to you as part of the decision letter but I've included that as well.

In addition, the school has submitted their first compliance plan and I've attached it for your review. They did not submit any other documents with the matrix and I'm writing them a formal letter regarding that which the Neighbors for Safety in Hiller Highlands will be cc-ed on probably early next week.

Subject: Check for recent Bentley documents

Hi Heather:
Welcome back and I hope you had a pleasant Thanksgiving with your family.
Donna and I would like to review the Bentley file box for materials that were added at the time of the hearing and since. For our records, we would like to have a complete copy of the final application materials and the staff report which, together with the amended COAs, make up the approved uses per item #1a of the October 29 Planning Commission approval (if this material is officially filed and recorded, please advise us where we should submit this request).
We are also interested in any materials that Bentley has submitted in regard to the November 30th deadline for the Conditions of Approval. We would like to come to your office on Tuesday 12/2 around 3:15 to review the file. If you have any of the materials due on November 30 in electronic format, we could receive them as email which might save some time and trees.
Thanks very much for your help,
Linda
