Subject:	STOP NOW Sewer Project at 11:30 PM on FRIDAY NIGHT!
Date:	Friday, February 07, 2014 11:38:37 PM

I can't believe the project cannot simply be stopped until Day time!

Blasting away behind all the bedrooms on Rosedale and 40th Ave.

meanwhile, there was scant work done most of the day because of the rain.

Thank you City of Oakland.

Leslie Bonett, Rosedale Ave.

Subject: RE: Sewer Project NOW at 7:45 PM!!

Dear Ms. Bonett,

Thank you for your email message. I've checked with the Resident Engineer (Susan Wang) earlier and found out that the Contractor had encountered a breakage in the cable and insertion head while pulling in a new sewer pipe. In order to make the area save and ensuring the bypass sewage system is running properly, the Contractor had to stay later than anticipated. This morning, the Contractor has dug up the area where the insertion head was located and made the necessary repair. Their plan is to continue pulling in the new sewer pipe tomorrow.

Typically, the Contractor works within the allowable work hours between 8:00 am and 5:00 pm. I apology for the unusual circumstance that occurred yesterday. I am copying the Resident Engineer in this email who will work closely with the Contractor to minimize disruption in the neighborhood to the extent possible. Please contact me if you have further questions.

Thank you,

Randy Mach, P.E.

Subject: Sewer Project NOW at 7:45 PM!!

At this hour, work on Rosedale Sewer project, which started 5 MONTHS LATE, is going on ... in the dark, loud, annoying CONTINUOUS vibrations, like jackhammers. I come home from work and want to relax and enjoy my quiet neighborhood.

Why are they working so late? in the dark, I believe they are putting their own safety and our residents at undue risk.

Please WE INSIST the work be during day hours as specified SEVERAL TIMES in notices from the City regarding this project.

Thank you FOR YOUR ATTENTION TO THIS MATTER.

Leslie Bonett
Rosedale Ave.
