Subject: [MI] What do U.S. local govs think about ODI"s open data certificates?
Date: Sunday, February 09, 2014 10:11:46 AM

This looks like a newer initiative:
https://certificates.theodi.org/datasets

Should this be promoted in the U.S.?

I see the City of Raleigh in the mix, the only non-UK gov at first glance.
