Kori,

I've yet to receive a response to the message I sent last Thursday.

In addition, vehicles are parallel parking behind vehicles parked in designated parking spaces in the main Bentley parking lot (Hiller Dr). Has the staff increased?

Kori,

This morning there were many Bentley-related vehicles parked on Hiller Drive, and many green-vested traffic monitors.

Neighbors did not receive a notice of a scheduled event, and the Master Calendar does not show an event. What was going on?

For the past three days, traffic has been a problem. In addition, Bentely-related vehicles have been parking on Hiller and North Hill Court. Thank you for putting notices on the car windshields yesterday. Let's hope the parking problems are quickly resolved.
