Subject:	Bentley jaywalking
Date:	Tuesday, May 28, 2013 4:03:50 PM

Today at 3:04 I was driving up Hiller Drive. A Bentley parent left the sidewalk adjacent to the school entrance (where the monitor stands) and jaywalked with her student/child behind her. The student was pulling a roller bag.

Traffic stopped in both directions while the two crossed to the opposite side of Hiller. Both the mother and daughter opened the car doors on the driver side (into the traffic lane) to load themselves and bag into the car.

A Bentley monitor and another vested person (possibly DKS) were standing at the entrance gates. They did not approach the parent regarding jaywalking violation. The parking lane along the Memorial Garden was full and additional cars were arriving to enter the driveway.

Thank you,
Linda Harris
