Kori,

This morning there were many Bentley-related vehicles parked on Hiller Drive, and many green-vested traffic monitors.

Neighbors did not receive a notice of a scheduled event, and the Master Calendar does not show an event. What was going on?

For the past three days, traffic has been a problem. In addition, Bentely-related vehicles have been parking on Hiller and North Hill Court. Thank you for putting notices on the car windshields yesterday. Let's hope the parking problems are quickly resolved.
