Subject:	Cars continue to park in the fire lane at Bentley in the afternoon
Date:	Friday, September 06, 2013 4:06:43 PM

For the past two days, my husband has seen a number of cars parked along the fire lane on Bentley property around the 3 pm pick up. These cars do not have drivers in them-- so they are truly parked. Today at 3, we saw six cars, including the security officer's car. That is in violation of the City's fire code. It is important to clarify the regulations and eliminate this violation early in the school year, lest it become a habit.

Thanks.
