Subject:	Staff parking in front of our house today
Date:	Wednesday, September 11, 2013 3:01:23 PM

Gordon talked with Steven, a part-time employee in your after school program, who was parked in front of our house. He was not aware of the transportation management plan requirements.

And the white van was also parked there today.

We are seeing an increase in the number of what we think are staff cars-- can you please let us know your statistics for number of students enrolled, and full and part-time employees. We would like to see the list of positions, and who is employed in that position.

There is also a question about vendors-- if a vendor (non employee) is contracted to deliver a service for more than 2 hours a week (say, a music consultant, for example)--their parking has the same impact as if the individual were an employee. So I would also like to see the number of vendors, who they are and their schedule.
