Laura, thank you for your notes from the meeting. However, they do not include any discussion about the request for the school to meet with representatives of the neighborhood to review the list of employees, nor the idea that we could try to agree on a definition of part-time employee to help resolve the ongoing question about the total number of employees on campus, which are necessary to provide a baseline for your compliance plan.

We spent considerable time discussing that--even if Bentley decides that they do not want to move forward with that conversation with the neighbors, it should be represented in the notes from the meeting, otherwise, it is an incomplete record of the meeting.

I would appreciate your amending the notes to include this discussion.
