Background Information	What information and/or incident(s) occurred which caused the event and/or operation? How many subjects or protesters were expected?
<u>Situation General:</u> OPD expected the Grand Jury in Ferguson, Missouri, to reach its decision on or about 24 Nov 14. OPD had spent weeks planning for this announcement and anticipated demonstrations to occur upon the decision being made public. OPD was aware of various groups that advertised demonstrations to commence on the day of the announcement beginning at 1900 hours at Frank Ogawa Plaza (FOP), with participants gathering as soon as 1600 hours. Demonstrations were planned regardless of whether or not there was an indictment. It was believed the demonstrations could enter a second operational period, or demonstrations would	

occur for days afterwards.

Situation Specific:

On 24 Nov 14, the Grand Jury's decision was made public. As a result, several demonstrations occurred from 24-29 Nov 14:

1. 24 Nov 14: Prior to the decision, several groups called for a demonstration on the day of the announcement:
 - a. BAMN (By Any Means Necessary) / Fuck the Police (FTP)
 - b. Stop Mass Incarceration Bay Area
 - c. Oakland Emergency Response to Mobilize if Darren Wilson is Not Indicted for Murder of Mike Brown
2. 25 Nov 14: Demonstrations to occur at 14th & Broadway
 - a. BAMN/FTP
 - b. Stop Mass Incarceration Bay Area
 - c. Oakland Uhuru Movement
3. 26 Nov 14: [REDACTED]. However, OPD mobilized Mobile Field Forces (MFFs) in anticipation for a demonstration and march. The incident demonstration and march began at FOP.
4. 27 Nov 14: [REDACTED]. However, OPD mobilized MFFs in anticipation for a demonstration and march. No event occurred this date.
5. 28 Nov 14: OPD mobilized MFFs for the following events:
 - a. BAMN/FTP daily protest at FOP
 - b. Revolutionary Communist Party (RCP) "Black Lives Matter Friday" protest at Walmart located at 8400 Edgewater.
6. 29 Nov 14: OPD mobilized MFFs for the following events:
 - a. BAMN/FTP daily protest at FOP
 - b. RCP and other groups at Walmart and also at Police Administration Building (PAB)

Objectives	What were the primary objectives and sub-tasks for this event?
<u>Mission</u> <p>The Mission of the Oakland Police Department (OPD) was to conduct crowd management for the events from 24-29 Nov 14 with the assistance of other City departments and outside law enforcement agencies, if needed. The mission was conducted with a view to achieving the following overarching goals:</p> <ol style="list-style-type: none">1. Protect life;2. Maintain Officer Safety;3. Protect vital facilities;4. Protect property;5. Maintain Public Peace and Order; and6. Uphold Constitutional Rights of Free Speech and Lawful Assembly.	
<u>Commander's Intent</u> <p>This operation's purpose was to facilitate a lawful rally and march in compliance with Department policy as directed in Training Bulletin III-G, OPD Crowd Control and Crowd Management Policy. Violent behavior, major destruction/vandalism of property, and other criminal activity would not be tolerated; those who participated in such acts would be arrested when and if safe to do so.</p> <p>OPD intended to execute this police operation in a cooperative manner and, to the extent possible, without</p>	

requiring the use of force. To that end, OPD would try to identify group leaders and to initiate dialogue to seek their cooperation. The OPD Tactical Negotiations Team would carry out this task. Any response to this event was contingent on the amount of protestors/marchers and their behavior. If clear violations of the law were observed, it would remain the Incident Commander/Operation Commander's discretion whether an arrest was made or not. Arrests would be made only if safe to do so. The Incident commander would be responsible for the overall Command and Control of this operation.

Strong supervision and command were essential to maintaining a unified, measured and effective police response. Impulsive or independent actions by officers were to be avoided. Police personnel needed to maintain professional demeanor and remain neutral in word and deed despite unlawful or anti-social behavior on the part of crowd members. Unprofessional police behavior could inflame a tense situation and make crowd control efforts more difficult and dangerous.

OPD would enforce applicable laws and arrest specific individuals who were committing crimes. In the event of a declaration of an unlawful assembly, OPD would disperse crowds in an orderly manner to predetermined egress routes and arrest individuals who fail to disperse.

Repeated announcements would be made advising them of our intent to arrest them if they do not leave. Announcements should be made in different locations if the crowd is large and noisy. Sufficient time would be allotted for those who wish to leave before any further police action is taken. Those remaining and refusing to leave would be cited or arrested.

OPD would follow and request all law enforcement agencies participating pursuant to a mutual aid request to follow OPD policies respecting crowd control management, unlawful assemblies, use of chemical agents and less-lethal impact munitions, use of force, arrests and transporting in-custody individuals to jail. Responding units would be briefed on the operation at the staging location and their crowd control munitions would be inspected. Chemical agents could be used to disperse riotous crowds ONLY at the direction of the Incident Commander. Use of chemical agents could be deployed at the supervisor and MFF command level under exigent circumstances.

Key Tasks

The following was our list of our mission-essential tasks:

- Gather information on the intent and plans of the event organizers;
- Attempt dialogue with event organizers/liaisons;
- [REDACTED]
- Monitor the rally and facilitate a march;
- Prevent/Respond to acts of violence and major acts of property damage/vandalism and arrest those responsible for the acts;
- Enforce applicable laws by identifying and arresting specific individuals engaged in unlawful behavior when safe to do so;
- If necessary, issue dispersal orders and disperse crowds in an orderly manner to predetermined egress routes. Safely cite/arrest individuals who fail to disperse;
- Process arrestees in accord with OPD policy/procedures;
- Investigate uses of force, complaints and criminal acts in accord with OPD policy/procedures;
- Maintain strong team discipline.

End State

This operation was successful and the following conditions were achieved:

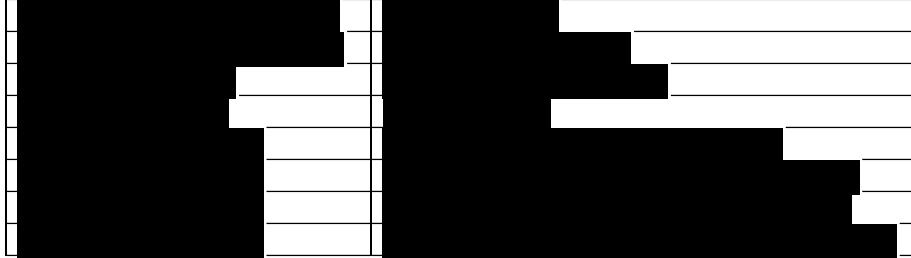

- First Amendment Rights of event participants safeguarded;
- No acts of violence or vandalism occur;
- No officers are injured; and
- Only reasonable force is employed in executing the mission.

Operations	Was there an Operations Chief for this event? Who were the key personnel assigned operational tasks during this event? Was there a field Command Post(C/P)? Where did the event take place and did it move to another location? Where was the location of the C/P? Was the C/P mobile? Was the Emergency Operations Center (EOC) activated?

Key Locations:

Concept of Operations:

For each operation, OPD established four MFF Companies, each with four platoons, designed for small unit tactics. After receiving the operations briefing, each MFF company was deployed to the area of operation. Tango and video teams were assigned each operation. Other assets available to the operation included: Public Information Officer(s), motor squad/dual purpose squads for traffic control; bicycle squad for crowd intervention and management; TNT in an SUV and ATVs with sound equipment for announcements; [REDACTED] and Argus for aerial reporting.

During operations, MFF Platoons were directed to maintain a visible presence in and around the demonstration areas, and any identified demonstration locations and march routes. All personnel were to remain mobile and flexible ready to respond to address crowds and crime concerns (violence or vandalism). In addition, personnel were directed to cite and arrest law violators when appropriate. CHP was notified of the event and prepared to assist with freeway access points. Outside LE Agencies were provided a warning order in anticipation of mutual aid.

General Sub-Unit Tasks:

1. MFF Companies

- On order, facilitate marches, by trailing and/or paralleling the protesters. Maintain close, visible presence with the crowd.
- Provide force protection for vital infrastructures such as the PAB, highways, etc.
- Identify and cite / arrest individuals committing crimes, when tactically feasible to do so.
- Maneuver to assist in crowd containment and control, and mass arrests, if required. This may include preventing crowd access to critical infrastructure and/or freeways.

2. Motors/Dual Purpose Motorcycle Squads

- Deploy to the protest rally points.
- Control traffic for the protest and/or march. Provide ongoing traffic control as needed.
- Patrol the downtown area, maintaining visibility, enforcing laws, and citing for infractions.
- Provide force protection for vital facilities and/or MFFs.

3. Bicycle Squad

- Deploy to the protest rally point, maintaining a visible presence and citing for infractions.
- Monitor protester activity and identify criminal elements. Pay attention to bicycle violations.
- Recon march route and target locations.
- Trail and/or parallel marches. This will be a primary assignment, if the demonstrators become

mobile on bicycles.

4. TNT Field Units

- a. Respond to the protest area, prepared to respond to crowd activity.
- b. Conduct liaison with event leaders throughout the operation.
- c. Communicate with crowd during rallies and marches, in order to provide support, guidance, and direction.
- d. Be prepared to provide dispersal orders and egress routes.
