Pedestrian crosswalk @ Bellevue Ave & Grand	12/17/2012
Description: Alleges the wrongful death of wife caused by dangerous condition of public property. The City of Oakland's unsafe road and crosswalk design contributed to claimant's wife dying five days after her and husband Luc were hit by a car while walking in the crosswalk. A Prius failed to yield to their right of way and smashed into them, causing severe injuries. Her death could have been prevented if the streets were designed safer to cross.
