Mr. Mark Norton
3856 High Street
Oakland, California

Re: 3856 High Street

Dear Mr. Norton:

Building Permit D5696 was obtained from this office for the following work at the subject premises:

Addition, alteration, and repair.

A recent inspection revealed that additional work is being performed which is not indicated on the building permit. Following is a list of some of the work which is being done:

Exterior walls have been completely removed.

Please bring your copy of the permit and two sets of plans showing the additional work being performed to the Building Division office. We will then be able to review the proposed work for compliance with the requirements of the Oakland Building Code and related ordinances. If found to be acceptable, the additional work and fee can be added to the current permit application.

If there are any questions, feel free to call Building Inspector D. Bowen, 273-3584, between 8:00 and 9:00 a.m., Monday through Friday.

Very truly yours,

PETER A. ORTOLJO
Supervising Building Inspector

NR: 3856 High St.

Dear Mr. Horton:

In checking our files, we find that the permit issued to you on October 1, 1979 for plumbing will become void in 30 days after receipt of this letter unless such work governed by this permit is either commenced or finished.

If this work is completed or is to be continued within this 30 day period, please notify us immediately. In the event that this permit is cancelled and prior to the commencement of any future work, it will be necessary for you to secure a new permit under provisions of the Oakland Plumbing Code, Section 2.7 last paragraph.

Thank you.

Very truly yours,

JOHN W. CARTER

Sec. 11-902 OAKLAND HOUSING CODE. "Smoke Detectors in Existing Residential Occupancies". In existing residential occupancies when alterations, repairs, or additions having a valuation in excess of One Thousand (\$1,000.00) Dollars (\$10,000. in the case of transient guest rooms or hotels) or when one or more sleeping rooms are added or converted, or when the property is sold or title transferred to other than an immediate relative, the entire building shall be provided with approved smoke detectors as required for a new residential occupancy.

In transient guest rooms, or hotels, smoke detectors shall be installed with captive screws, or any other method that will preclude unauthorized tampering or removal of the device.
(As amended by Ordinance No. 9471 C.M.S. passed May 24, 1977).

NOTICE
STATE OF CALIF. ENERGY INSULATION REQUIREMENTS

Call for insulation inspection.

All glazed openings and exterior doors shall be weatherstripped.

All insulation shall meet Federal Specifications and be easily identified both on the package and on the vapor barrier with their " R " values.

As required by State regulations both the builder and the insulation applicator must sign a card or letter certifying that the proper " R " values for all insulation locations have been installed. The certificate of compliance shall be submitted to the Oakland Building Dept. before a Certificate of Occupancy is issued.
