Here is public document I am creating which contains the written transcript from the inaugural speech. The video version was previously posted on RecordTrac.

“We must revitalize and grow in a way that keeps Oakland affordable and doesn’t push out what makes Oakland Oakland. Our Oaklandishness – our diversity, our artists, our gritty industrial flavor, our natural and architectural beauty, our social entrepreneurs – that magical mix that makes up Oakland’s poppin’, sizzling secret sauce! A recipe no other city can steal or imitate! It’s ours and doesn’t it taste great?!!!!”
