Subject: License plate info

Hello
Amber

Sorry for the severe delay, I received your message from early july (I have been on unexpected medical leave for several months without access to my work email). You had mentioned to email you and that you would be able to send the license plate data? My request # was 8638 thank you, [REDACTED]

This is in response to your PRR #8569. We have recovered 13 of the 20 batches of ALPR data that was provided by the custodian of records of the Automatic License Plate Reader for a similar request. You can access the information from the link I have provided for you below. An email search is being conducted by the City's Department of Information and Technology (DIT) to locate the other seven batches. We expect to receive a response no later than the end of this week. Once we receive the material I will forward the information to you. Per the custodian of the records, the data stored on the server only goes back to 12/23/2010. If you should have any questions regarding the material, please give me a call.
