#14-23353.

I made contact with [REDACTED] (OP3) who is the safety manager at Royal Electric via TEL [REDACTED] to confirm his authorization of releasing both vehicles to OP1 & 2.

I then contacted the superintendent [REDACTED] (OP4) of Royal Electric who was the Reporting Person of the stolen vehicle to inform him of the recovery of the vehicles and confirmed the release of the vehicles to OP1 & 2. OP4 was contacted via TEL# [REDACTED].

While inspecting the vehicle, I observed one of the two batteries from the engine compartment missing and the front dash board was damaged and pulled away from the front windshield. In the back of the UT bed was a large silver tool box, that was bolted to the bed. The front locks were pried open and the tool box was empty.

I advised dispatch of the status and disposition of the veh. The vehicle had both plates and was damaged. The vehicle also had a phone number [REDACTED] written on the front bumper with what appears to be pencil.

Dispatch removed the vehicle from the SVS. I then released the vehicle to OP1 & 2.

No suspect/witness info, no tech requested.

No one in custody.
