One of the young men we talked to in Ferguson said that some people were paid \$200 to read a script by Fox News. The statement they read, made it seem like Michael Brown was the aggressor. He said that many of the people who were interviewed were poor and took the money. I dare Fox News to deny it! He gave a video taped testimony to us!

Jessie Sandoval Anita Wills was not sure if you were directing your last comment to me, but I would like to clarify, that if I mentioned "young men" it was only because I did not read the post, and comment thread very carefully. I have young men on the brain... It's difficult not to with all that has been happening. I apologize if there was some misunderstanding.

Anita Wills I was making a statement out of frustration with how folks jump to conclusion. I was trying to clarify why I will not give out the young man's information, because people are way too ignorant. The young man I spoke to is not in the photo or any of the photos I posted. His identity is going to remain anonymous.

Alison Cecile Johns Rachel Jackson, thank you. I thought it was an acoustic weapon of some kind. I know they used this on protesters in Detroit this summer, demonstrating against the water shutoffs. I'll read up on it. looks like they can focus it very narrowly, judging from that cannon looking part in the front.

Based on what happened Friday, we will need a minimum of two FULL companies to address this (with all the support). We should have a 1500 briefing time to be on post at the locations prior to 1700. Planning will need to start on the detail now to get out notification.
