Subject: Malonga Noise Update

Good Morning Greg,

Please be advised that I have reached out and spoken to [REDACTED] today in regards to her last email concerning the noise complaint at the Malonga Center. I have assured her that we are working on some long-term and short-term goals to get some resolve in this matter. I have also reached out to Derin Minor and Gregory Johnson to assist me in looking at options on noise reduction in the room. This involves closing the windows and air circulation and ventilation for the room. Once this study is done and tested I will let you know how this worked. This work will start this week and we will continue to look at other options at reducing the whistling noise level.
