FORTH EIGHT (48) HOURS BEFORE ACTUAL CONSTRUCTION.

I, as owner of the property, am exempt from the sale requirements of the above due to:

(1) I am improving my principal place of residence or appurtenances thereto, (2) the work will be performed prior to 5:30 p.m., (3) I have resided in the residence for the 12 months prior to the date of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three year period. (Sec 7044, Business and Professions Code).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereto, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will be the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereto, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. 7044, Business and Professions Code, for this reason:

Date: 10/23/2012
Permit good from 10/24/2012 to 12/31/2012

ADD NEW SUBSECTION TO READ:
SP 7-10.1.4 Vehicular Traffic

Attention is directed to Section 7-10. Public Convenience and Safety of the City of Oakland Standard Specification for Public Works Construction, 2006 Edition (Include this paragraph for p-jobs, excavation permits or obstruction permits).

The Contractor shall conduct its work in such a manner as to provide public convenience and safety and according to the provisions in this subsection. The provisions shall not be modified or altered without written approval from the Engineer.

Standard traffic control devices shall be placed at the construction zone according to the latest edition of the Work Area Traffic Control Handbook or Manual on Uniform Traffic Control Devices (MUTCD), Chapter 6 – "Traffic Controls for Construction and Maintenance Work Zone," or as directed by the Engineer.

All trenches and excavations in any public street or roadway shall be back filled and opened to traffic, or covered with suitable steel plates securely placed and opened to traffic at all times except during actual construction operations unless otherwise permitted by the Engineer.

Each section of work shall be completed or temporarily paved and open to traffic in not more than 5 days after commencing work unless otherwise permitted in writing by the Engineer.

Where construction encroaches into the sidewalk area, a minimum of 5 ½ feet of unobstructed sidewalk shall be maintained at all times for pedestrian use. Pedestrian barricades, shelter, and detour signs per Caltrans standards may be required.

The contractor shall conduct its operation in such a manner as to leave the following traffic lanes unobstructed and in a condition satisfactory for vehicular travel during the Obstruction Period. At all times traffic lanes will be restricted and reopened to travel. Emergency access shall be provided at all times.

Street Name Limits					
Obstruction Period	North Bound	South Bound	East Bound	West Bound	
628 Capell St between McKinley St and Cleveland St	Mon. – Fri. 8am – 5pm	N/A	Lane Closure / No Parking	N/A	N/A
Notes: 1) All temporary traffic controls may change at the discretion of City of Oakland Inspector. Changes made must be resubmitted to Oakland TSD for plan review and file update. 2) Flagmen to be provided as necessary.					

The Contractor Shall Also include all check item:

- ☒ Design a construction traffic control plan and submit (2) copies to the Engineer for approval prior to starting any work.
- ☒ Replace all signs, pavement markings, and traffic detector loops damaged or removed due to construction within 3 days of completion of work or the final pavement lift.
- ☒ Provide advance notice to Oakland Police at (510) 777-3333 (24-hrs) and Oakland Fire at (510) 238-3331 (2-rhs) when a single lane of traffic or less is provided on any street.
- ☒ Provide 72-hour advance notice to AC Transit at (510) 891-4909 when affecting a bus stop.
- ☒ For Caltrans roadways, ramps, or maintained facilities, the Contractor shall obtain appropriate permits and notify the Traffic Management Center 24 hours in advance of any work.
- ☒ Flagger control is required. Certified Flagger is required.
- ☐ Pedestrian walkway by K-rail, Canopy or Plywood is required. (See detour plan)
- ☒ Pedestrian traffic shall be maintained and guided through the project at all times.
- ☒ Provide advance notice to Business and Residence within 72-hours.
- ☒ Allow all traffic movement at intersection.

Nothing specified herein shall prohibit emergency work and/or repair necessary to ensure public health and safety.
