RE: **A Report And Resolution Granting The Rock Paper Scissors Collective A Revocable And Conditional Permit To Allow The First Friday Community Cultural Event To Encroach Into 23rd Street Between Valley Street And Telegraph Avenue On The First Friday Of Each Month Between The Hours Of 5:00 P.M. And 10:00 P.M.**

A resolution has been prepared granting a conditional and revocable encroachment permit for an indeterminate period of time to the Rock Paper Scissors Collective (RPSC) to operate an outdoor community fair within a one-block section of 23rd Street for local community groups and artists to engage with participants of the First Friday art walk (Art Murrmur) during the evening of the first Friday of each month. The event has been operating since early 2006, and the street closure permits that RPSC has been obtaining from the Oakland Police Department (OPD) are unnecessarily burdensome for RPSC, the neighbors (who must sign a petition each time), and the OPD. The encroachment permit may be suspended by the City Engineer for cause and revoked by the City Council by resolution. The Chief of Police, the Fire Marshal, and City Engineer may suspend or end the day's activities for emergency circumstances.

Staff costs for processing the proposed encroachment permit are covered by fees set by the Master Fee Schedule and will be paid by the event organizer and deposited in the special revenue Development Service Fund (2415), Engineering Services organization (88432), Encroachment Permits account (42314), Engineering and Architectural Plan Approval (PS30). The event organizer has a current Business Tax Certificate. The standard conditions of the encroachment permit require the permittee to maintain liability and property damage insurance and to include the City as a named insured.

Rock Paper Scissors Collective is a volunteer-run community arts organization that is part of the Oakland Art Murmur, a coalition of art and cultural venues in Oakland. Art Murmur began the First Friday art walk with eight participating venues in January 2005 as a way to collectively promote art openings at small, independent galleries. Since the first art walk, the event has grown to include thirteen galleries and has drawn hundreds of people to the area every first Friday of the month. The First Friday Community Cultural Event is a community block party created in early 2006 in order to involve community organizations, street artists, and residents in the success of the Art Murmur and to provide a safe space for the public participating in the art walk.

The art galleries and burgeoning art scene around Telegraph and 23rd St. are complimentary businesses and activities to the nearby residential development currently under construction on the adjoining block. Residents and businesses in the area are likely to be aware of the First Friday Art Murmur, but they will also receive monthly flyers and invitations from the participating galleries, as well as the Art Murmur. RPSC will also notify new neighbors about the First Friday Community Cultural Event through letters and flyers encouraging them to participate and engage with the community organizations and artists in the area.

KEY ISSUES AND IMPACTS

Parking

There is ample parking in the immediate vicinity of Telegraph Avenue, and many of the vendors, who live and work nearby, walk to the monthly event. There is a growing need to provide bicycle racks for patrons and vendors.

Beginning Friday, July 6, 2007, the City's Cultural Arts & Marketing Division will launch a free shuttle service to help transport patrons get around to the various galleries and nearby restaurants and cafes. ProArts Gallery has offered free use of its parking lot, which is accessed from Jefferson between 2nd and 3rd Streets, for patrons to park and catch the shuttle. The free shuttle will loop through downtown from 6:00 p.m. to 11:00 p.m. the first Friday of the month through October, and it could be extended year-round or resume again in the late spring/early summer of 2008.

Security

The event is patrolled by volunteers and several of the adjoining art galleries hire private security to monitor their store fronts on 23rd Street. No alcohol is sold during the event.

Access

The proposed resolution includes a provision that the location and limits of the encroachment in the street are subject to the review and approval of and subsequent adjustment by the Chief of Police, Fire Marshal, and the City Engineer. Building driveways and exit doors on 23rd Street will not be obstructed. The adjoining street network will assure sufficient traffic circulation during peak hours and ample emergency vehicle access to the surrounding area.

Damage

The proposed resolution includes a provision that RPSC be responsible for any costs the City may incur to repair damage to public infrastructure.

Litter and Refuse

RPSC positions Waste Management containers at curbside for use by vendors and the public. No food or drink is provided or sold during the event, and a volunteer crew cleans up afterwards.

Notification and Disturbances

RPSC will continue to notify neighbors by letter and by door-to-door contact during the week that each event is scheduled. The proposed resolution includes a provision that decibel levels during the event conform with the restrictions of the OMC noise ordinance and the Planning Code, and that amplified sound be approved by the Chief of Police. RPSC has proposed that no music be played after 9:00 p.m.

SUSTAINABLE OPPORTUNITIES

Economic

The event will improve the economic vitality of the business district by supporting ready access to products crafted by local artisans, by attracting new customers, encouraging frequent return visits, promoting increased pedestrian use of the public right-of-way, increasing patronage of the surrounding galleries and restaurants, and encouraging positive regional publicity. The event supports the arts and local artisans, acts as an incubator for entrepreneurial business, and decreases the purchase price while increasing profit margins.

Environmental

Direct-sales by artists and artisans to consumers will reduce intermediary handling, storage, transportation, and packaging requirements. The conditions of the proposed resolution require that RPSC:

- contain and remove litter, trash, and other deleterious materials from the street and sidewalks, and
- install affirmative methods to curtail the introduction of deleterious materials into the storm drain system (which drains to the bay).

Social Equity

The event will promote attendance by the continued patronage of a culturally diverse cross-section of the community.

DISABILITY AND SENIOR CITIZEN ACCESS

The conditions of the proposed resolution require that RPSC comply with City and State handicapped accessibility regulations.

RECOMMENDATIONS

Staff recommends that the Committee accept this report and forward it to the City Council to adopt the proposed resolution approving the monthly encroachment into the public right-of-way.

ACTION REQUESTED OF THE CITY COUNCIL

Staff recommends that the City Council accept this report and adopt the proposed resolution granting the Rock Scissors Paper Collective a conditional and revocable permit to allow the First Friday Community Cultural Event to encroach into 23rd Street between Valley Street and Telegraph Avenue on the first Friday of each month between 5:00 p.m. and 10:00 p.m. for an indefinite period of time.
